

Each stillsuit is tailored to the body and personality of each different character, no stillsuit is the same. These patterns are made to make it easier for you to put together your own costume with the help of the video tutorial. It is suggested to print out the pattern and tape the cut-out pieces all together. You may need to scale the parts of the costume slightly to your taste. Once satisfied with the scaling you can transfer it to foam and create your very own stillsuit.

Pattern is made for an EU size M

Scale to your own size if needed
